

In the Specification

**Please insert the following paragraph at page 8, line 22, of the specification immediately preceding the “Materials and Methods” section:**

The present invention provides an immunogenic composition for conferring protection in a host against disease caused by respiratory syncytial virus (RSV) comprising an F RSV antigen; a G RSV antigen; and at least one of M, M2, SH, NS1, NS2, N, or P RSV antigen. The present invention also provides an immunogenic composition for conferring protection in a host against disease caused by respiratory syncytial virus (RSV) comprising an M2 RSV antigen; and at least one of F, G, M, SH, NS1, NS2, N, or P RSV antigen. The present invention also provides an immunogenic composition for conferring protection in a host against disease caused by respiratory syncytial virus (RSV) comprising an F RSV antigen; a G RSV antigen; an M2 RSV antigen; and at least one of M, SH, NS1, NS2, N, or P RSV antigen. The immunogenic compositions of the present invention can be mucosal vaccines.
